PROFESSIONAL SUMMARY

Software engineering student focused on developer tooling, backend development and open source.

Experience includes building Git and repository analysis tools, contributing across multiple open source programs and mentoring developers as a Project Admin.

SKILLS

- **Languages & Frameworks:** Python, JavaScript, TypeScript, HTML, CSS, React, Vite, Node.js, Express, FastAPI, REST APIs
- **Tools:** Git, GitHub, simple-git, npm

EXPERIENCE

Technical Mentor & Project Admin — Elite Coders Summer of Code 2026

July 2026 – Present

- Guide students across project architecture, implementation, debugging and Git workflows.
- Serve as Project Admin for Cradle, coordinating technical progress and supporting contributors.

Open Source Contributor — GSSoC26 · SWoC26 · ELUSOC26 · OSCG26 · SSoC26

2026

- Contributed issue-based features, documentation, testing, UI improvements and project utilities across frontend and backend repositories.

PROJECTS

Repo Engine

- Built a Python-based repository analysis engine that extracts structural and architectural information beyond basic file-tree inspection.
- Designed an extensible analysis pipeline for deeper codebase understanding and complexity analysis.

Xaytheon

- Co-developed a GitHub analytics and open source discovery platform for tracking contributions and exploring the ecosystem.
- Implemented project discovery, filtering, visualization, contribution tracking, and community insight features.

GitNest

- Co-developed a MERN-based Git utility using `simple-git` for programmatic repository operations.
- Integrated web-based workflows with core Git operations for developer-focused repository management.

EDUCATION

Parala Maharaja Engineering College

Bachelor of Engineering (Electronics and Telecommunication Engineering) · 2023 – 2027

CERTIFICATIONS & ACHIEVEMENTS

- AIR 9 — Social Winter of Code 2026 (SWoC26)
- Top Contributor — GSSoC26, SSoC26, ELUSOC26, and OSCG26
